# SOLAR.4.SCHOOLS

Clean, Renewable and Sustainable Energy for  
Amazon Indigenous Health & Education

# For a long time

they have been isolated

for Amazon indigenous peoples, shining a light on school classes & conserving food, vaccines and medicines in health outposts

have been done with  
polluting and unreliable  
expensive diesel generators

solar.4.schools can now

- ✓ energize classrooms and all pupils
- ✓ sustain health data collection
- ✓ power health & education

# solar.4.schools can now strengthen their future

by providing solar power to schools' rooftops

- ✓ to allow teachers and pupils sustaining learning environment,
- ✓ vaccines and medicines proper storage
- ✓ moreover, to allow:

- indigenous health agents to collect and consolidate health data
- any-time health data transmission to new telehealth centre

- ✓ above all, to allow:

- any-time connection to dedicated nurse at telehealth centre
- first-of-its-kind patient triage for pregnant women and emergencies

**A BRIGHTER FUTURE ... LONG DENIED**
