

## **YIH LERH HUANG, PhD**

Dr. Huang has background in psychology and mathematics with a Ph.D. in cognitive psychology. He did post-doctoral work in systems engineering and completed Oxford's Advanced Management Program. It was followed recently with M.A. in Development Studies from the University of Sussex, the largest European school of its kind.

A seasoned senior executive in IT, Yih Lerh has extensive international business development experience, especially in Latin America and the Caribbean. He has started green-field operations internationally, built and mentored numerous teams. He targets innovation particularly in building large-scale software systems, with patents awarded and pending. Yih Lerh has occupied positions of Vice-President and Chief Technology Officer.

Presently as an Independent Researcher, his main activities and responsibilities have been to investigate the relations between nations' economic development, inequality and changes in their social institutions.
